

The THBEA “Videos We Like” List – 20191007

The Texas Honey Bee Education Association board members like the following videos for beginning and intermediate beekeepers.

The intent of this list is to point beekeepers and beekeeping associations to resources which THBEA’s board members have found useful in their beekeeping journey.

Beekeeping Associations may desire to use a video in lieu of a live speaker.

The list is in no particular order.

If you’d like to add a video to the list, e-mail comments@thbea.com with your recommendation. This list is designed to be a “living” document.

Topic	Speaker	Affiliation	Length	Location
